

FAN-WHEEL model

VRA 145/200 airtek 1.1

Bi-directional fan, electro-tipped blades

Professional cooking

Home appliance

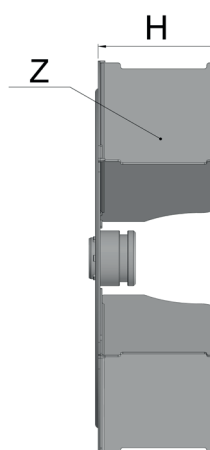

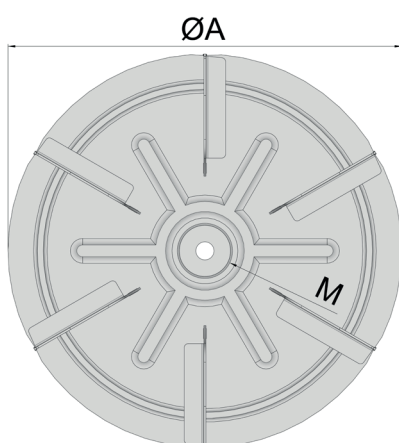

Special uses

The innovative fan-wheel Airtek 1.1

The new Airtek 1.1 “smart” fan-wheel designed as only one piece, light but strong and efficient at once.

For its use in cooking systems, the lowered inertia reduces the duration of inversion letting have a friendly management of the temperature, making uniform and speeding up the cooking time.

The match of Airtek 1.1 to the H.E.I.C. enhances its characteristics in terms of uniformity and, consequently, in terms of cooking efficiency.

Rotational direction

| | | |
|---|----------------------|------------------|
|  | Fan Material | AISI304-316-430 |
| Ø | Diameter | Ø145 ÷ 200 |
| H | Height | 30 ÷ 80 |
| Z | No. of blades | 6 |
|  | Hub Type | Chamfered |
|  | Hub Material | AISI 303-304-316 |
|  | Balancing | G6.3 ISO 1940 |
